

READ AROUND THE WORLD IN 60 DAYS!

Start in Malvern and read your way around the world this summer. Every day you read, record the number of minutes you've read in the circle. Every ten days, update your total minutes read. Every minute you read equals one mile traveled. Your goal is to travel as far as you can in 60 days! When you come back to school in September, we'll reveal which students, classes, and grade levels earned the most reading miles!
